Objective

To leverage my programming, DSA, and problem-solving skills as a Computer Engineering student in real-world projects, with a focus on software development and artificial intelligence, while learning and contributing to innovative and scalable solutions.

Personal Details

- Date of Birth : 24/04/2006
- Nationality : Indian
- Gender : Male

Education

- **Madhuben And Bhanubhai Patel Institute Of Technology - CVM University** 3rd Year (2023-27)
B.Tech Computer Engineering
9.78 CGPA
- **Madhuben And Bhanubhai Patel Institute Of Technology - CVM University** (2024-26)
Minor Degree Program :- Robotics
8.67 CGPA
- **Bits Education High School, Khambhat** 2023
HSC(12th) GSHSEB Board
77.077 % And 94.49 Pr
- **Shree Madhavlal Shah High School, Khambhat** 2021
SSC(10th) GSEB Board
94.167 % And 99.32 Pr

Technical Skills

- Programming Languages: Python, C, JavaScript, JAVA
- Web Technologies: HTML, CSS, Flask , React.js , Node.js
- Database: MongoDB, MySQL
- Tools: Git, GitHub, VS Code
- Concepts: Data Structures, Algorithms, Machine Learning Basics, Cloud Computing

Projects

GraminSetu – AI-Powered Rural Healthcare Assistance Platform

(Tech Stack: Python, Flask, Deep Learning, MongoDB, React.js, Tailwind CSS, JavaScript)

- Developed an AI-based healthcare web platform to assist rural communities with basic medical guidance.
- Implemented a deep learning model to predict possible diseases based on user symptoms.
- Integrated a doctor appointment booking system, Report Sending With Pdf Format to email and for common illnesses and medical consultation.
- Designed a simple and user-friendly interface with Multilingual suitable for rural users with limited technical knowledge.

GyanSarathi – Gamified Digital Learning Platform

(Tech Stack: Python, Flask, MongoDB, React.js, Tailwind CSS, JavaScript, Phaser.js for games)

- Developed for Smart India Hackathon (SIH) 2025 – Problem Statement PS-25048.
- Designed a gamified learning platform for students in India and help to gain knowledge in STEM.
- Includes daily quizzes, streaks, badges, medals, and reward systems to increase engagement.
- Supports teacher–student roles, school-based approval, and curriculum-aligned content.

Gitaverse – AI for Accessible Wisdom

(Tech Stack: Python, Flask, React.js, Tailwind CSS, Text-to-Speech, json and mp3 audios)

- Designed an interactive learning platform to make the Bhagavad Gita accessible and engaging.
- Supports multiple learning modes including guided learning for kids, AI-powered question–answer interaction, and structured study mode.
- Integrates text, audio, translations, and explanations in user-selected languages.
- Focuses on combining traditional spiritual knowledge with modern AI technology for meaningful learning.

Achievements And Awards

- Achieved 2nd Rank academic awards in 1st and 3rd Semester for excellent academic performance.
- Achieved 1st Rank academic award in 4th and 5th Semester with two Consecutive 10 SGPA
- Secured Semifinalist Position In Code Unnati Innovation Marathon (CUIM) 4.0
- Awarded Dewang Mehta IT Awards for Toppers for Second year in 2024-25

Certificates

- Designing Stories in SAP Analytics Cloud - Course Completion Certificate
- AWS Cloud Foundation Course certificate
- Participation Certificate for Smart India Hackathon And Selected In College Level
- Certificate for Selected for Offline Round In both CVMU 3.0 And 4.0 Hackathon
- Academic Certificates for 2nd rank in 1st and 3rd semester And 1st rank in 4th and 5th semester
- Dewang Mehta IT Awards Topper Certificate
- Participation Certificate in multiple hackathons and innovation competitions focusing on Solving real world problems
- Code Unnati Innovation Marathon Certificate

Extra Curricular Activities

- Actively participated in hackathons and innovation competitions.
- Collaborated with team members to develop real-world technology projects.
- Regularly explore AI tools and new technologies for project development.
- IEEE Member In 1st and 2nd year
- Volunteer in many events of MBIT

Interests And Hobbies

- Playing Cricket And Table Tennis
- Learning new things
- Music
- Solving Problems with Team
